Julie asked Dan to relocate to public gallery. He refused. Kiosha made comments backing Julie up. He refused.

David isn't moving on relocating us. Maybe we don't show until he does?

This isn't an issue I'm willing to cancel meetings over at this point. I will discuss with exec committee.

You won't have any officers come participate meaningfully until this is dealt with. You saw for yourself how Chief O'Dea was treated with the Copwatch guy with the handheld camera.

Yes, that's because Julie and I did not ask him to.

We wanted to simply ask Dan to move instead. We will discuss again now.

Jim Young said she was too nice. I agree that may have been step one. But Jim, Kiosha and I think it's time to flat out tell him he sits with media and public. He will bitch and moan but that's ok. We will all have your back. It needs to feel welcoming to all to come to our meetings. I know we agree.

Hi Kristin. Just a heads up that nothing has been done re Copwatch sitting behind the bureau. David told me this morning he was unable to book the auditorium. He also said Dan moves chairs to that area from the public area. He said it is your role to ask them to sit in the public area .. not IPR staff's role. Just FYI. See ya at 5:30

Julie is chairing this meeting. She will be addressing this issue and asking that copwatch set up on the opposite side, behind IPR, to respond to discomfort from bureau members.

Thank you. I'm feeling worse by the min but will try to attend.

Ok. If you're not going to make it, can you let Julie know? She is in charge of monitoring the quorum for this one.

Sounds like the proposal for Dan to move did not go over terribly well – getting a text barrage from Angelo. He said we should CANCEL MEETINGS until Dan caved. I said no, obviously. But let's talk. Hope the meeting was a success otherwise. Thanks again for covering.

Angelo wasn't even at the meeting. I think dan could be persuaded. Kiosha was angelos mouthpiece tonight.

Just FYI.

Honestly, of all the issues with our process, this is not near the top of my list of things to take a huge stand on or start a brawl over. If Dan is flexible, great. Or if IPR and the bureau want to switch sides if Dan won't, fine. But that's about as far down the rabbit hole as I'm interested in chasing this. Just my two cents.

I'm with you, there are much more important things where I would rather put my energy. Dan seemed annoyed that folks weren't coming to him directly. Do you want to try for breakfast again.

Sure! I'm around next week tues-fri. Any of those work for you?

Tuesday or Wednesday , looks like both breakfast joints in st
