Thanks for this. I agree that Mr Handleman should not be the person that advises us on protocols and should not be afforded special treatment that other members of the public do not get. I have various meetings set up one of which is with Jamie Troy who Chaired the CRC for three years and who I'd like to reach out to first regarding protocol advisement. I'll circle back to yall once we've spoke, which will be on the 21st since he's out of town.

Also, everyone is discussing the previous appeal via email so I am trying to remind everyone that David needs to be CCed on every CRC email so that it can be put into public record. I try to make sure he is in my responses but sometimes I miss so please throw him in there on the front end.

Thanks yall,
Mae
